# Slammin' like there's no tomorrow!

At our science slam, scientists try everything to entertain their audience, regardless of whether the subject is mathematics or neuroscience. The sky is the limit when it comes to what's possible. Costumes, props,

movies, power-point presentations or other experimental set-ups – it's all allowed. Only time sets the limits – every slammer will have ten minutes at most. And the audience will decide which presentation is best!
