

# NEUROIMMUNOLOGICAL COLLOQUIUM

Winter Semester 2024 –2025

28th Oct **Young Investigator Session - Dr. Patrick Schindler [17:00h !!]**

Department of Neurology with Experimental Neurology , CCM Berlin

**Blood biomarkers for AQP4+ NMOSD and MOGAD**

11th Nov **PD Dr. Agustin Liotta**

Institute of Neurophysiology, CCM Berlin

**Metabolic consequences of axonal Demyelination: possible implications for MS**

25th Nov **Prof. Olga Ramich**

Molecular metabolism and precision nutrition, German Institute of Human Nutrition, Postdam

**Nutrition, circadian rhythms und MS**

9th Dec **Prof. Anne-Katrin Proebstel**

Experimental Neuroimmunology Lab, University Hospital of Basel, Switzerland

**Decoding environmental triggers and immune phenotypes in MOGAD – from pathomechanisms to novel treatment strategies**

13th Jan **Prof. Antonio Frigeri**

Translational Biomedicine and Neuroscience, University of Bari-Medical School, Italy

**TBA**

27th Jan **Prof. Claudia Lucchinetti**

Department of Neurology, University of Texas at Austin, USA

**Multimodal Imaging of Multiple Sclerosis Pathology: From Structure to Function**

10th Feb **Prof. Christian Karsten**

Institute of systemic inflammation research, University of Lübeck, Germany

**C5a in NMOSD: Innocent Bystander or Key Driver of Pathogenesis**

**16:30 - 18:00h at Hörsaal Pathologie, Virchowweg 14, CCM**

**Chair:**

Prof. Dr. med. Friedemann Paul

[friedemann.paul@charite.de](mailto:friedemann.paul@charite.de)

Prof. Dr. Carmen Infante Duarte

[carmen.infante@charite.de](mailto:carmen.infante@charite.de)

**NIC organization committee:**

Borja Latorre

[borja-manuel.latorre-hernandez@charite.de](mailto:borja-manuel.latorre-hernandez@charite.de)

Ekaterina Vasileva

[ekaterina.vasileva@charite.de](mailto:ekaterina.vasileva@charite.de)

Yihan Wang
