

NEUROIMMUNOLOGICAL COLLOQUIUM

Winter Semester 2023 –2024

16:30 - 18:00h at Hörsaal Pathologie, Virchowweg 14, CCM

- 6th Nov Prof. Joab Chapman**
Sheba Medical Center, Tel Aviv, Israel
Neurocoagulation modulates protease activated receptors in Multiple Sclerosis and neuroinflammation
- 20th Nov Prof. Ivo Bendix and Dr. Josephine Herz**
Pediatrics Clinic I, University Hospital Essen, Germany
Neuroinflammatory responses in perinatal brain injury
- 4th Dec Dr. Federico Soria**
Achucarro Basque Center for Neuroscience, Bizkaia, Spain
Matrix-glia interactions in MS models and neurodegeneration
- 18th Dec Dr. Sonia Waiczies**
Max Delbrück Center for Molecular Medicine, Berlin, Germany
Preclinical explorations in magnetic resonance imaging for Multiple Sclerosis
- 29th Jan Dr. Yoshiki Takai**
Tokohu University, Sendai, Japan
Pathological features in MOGAD: comparison with MS and NMOSD
- 5th Feb Dr. Letizia Leocani**
Institute of Experimental Neurology, Università Vita-Salute San Raffaele, Italy
Technologies for Multiple Sclerosis functional monitoring and recovery
- 12th Feb Dr. Sara Mariotto**
Department of Neurosciences, University of Verona, Italy
Differential diagnosis of MS: focus on NMOSD and MOGAD antibody testing and biomarker analysis

Chair:

Prof. Dr. med. Friedemann Paul
