

NEUROIMMUNOLOGICAL COLLOQUIUM @ AG Paul

Fall/Winter 2018 - 2019

Mondays at 14:00h

Charité Mitte Campus – Universitätsmedizin Berlin  
Ferdinand Sauerbruch Hörsaal 4, Hufelandweg 6

Oct. 15th	<b>Raluca Niesner, PhD</b> Department of Pathophysiology, DRFZ, Berlin <i>Intravital imaging and live cell imaging in chronic inflammatory processes</i>
Oct. 22nd	<b>Prof. Frank Heppner's Lab</b> Department of Neuropathology, Charité-Universitätsmedizin Berlin
Oct. 29th	<b>Athina Papadopoulou, M.D.</b> Neurology Clinic and Polyclinic, University of Basel, Switzerland <i>Changes in thalamic subnuclei in NMOSD</i>
Nov. 5th	<b>Christina Lill, PhD</b> Institute of Neurogenetics, University of Lübeck, Germany <i>Genetic and Molecular Epidemiology</i>
Nov. 12th	<b>Helena Radbruch, M.D.</b> Department of Neuropathology, Charité-Universitätsmedizin Berlin <i>Chronic inflammatory diseases</i>
Nov. 19th	<b>Prof. Seija Lehnardt, M.D</b> Institute of Cell Biology and Neurobiology, Charité-Universitätsmedizin Berlin <i>Neurodegeneration</i>
Nov. 26th	<b>Philipp Böhm-Sturm, PhD</b> Department of Experimental Neurology, Charité-Universitätsmedizin Berlin <i>Experimental MRI</i>
Dec. 3rd	<b>Jan-Patrick Stellmann, M.D.</b> Institut für Neuroimmunologie, UKE Hamburg, Germany <i>Metabolomic profiles and disease course monitoring</i>
Dec. 12th	<b>Doktorand Lunch Series</b>
Jan. 7th	<b>Volker Siffrin, PhD</b> Neuroimmunology Laboratory, MDC, Germany <i>Immunology of MS</i>
Jan. 14th	<b>Prof. Giuseppe Matarese, M.D., PhD</b> Department of Molecular Medicine, Università degli Studi di Napoli Federico II <i>Role of Chitinase-like proteins in endogenous CNS regeneration</i>
Jan. 21st	<b>Doktorand Lunch Series</b>
