

# Neuroscience Colloquium

## Summer Semester 2022

Lectures are held **Thursdays at 16:30**  
at the **Paul-Ehrlich-Hörsaal** (Virchowweg 4)

Date	Speaker	Title
Apr 28th	<b>Lu-Yang Wang</b> University of Toronto Host: Christian Rosenmund, Noa Lipstein	Shaping up ultra-fast neurotransmission in the developing brain
May 12th	<b>Loren Frank</b> University of California San Francisco Host: Matthew Larkum	Memories and mental simulation
June 2nd	<b>Giovanna Mallucci</b> University of Cambridge Host: Britta Eickholt, Frank Heppner	Mechanisms to medicines in neurodegeneration
June 9th	<b>Genevieve Konopka</b> UT Southwestern Medical Center Host: Katja Nowick	Cell type-specific transcriptional networks in brain evolution and disease
June 16th	<b>Christelle Rochefort</b> Sorbonne University Host: Constance Scharff	Cerebellar contribution to spatial cognition
June 23rd	<b>Angelika Lampert</b> Uniklinik RWTH, Aachen University Host: Christian Madry	iPS-cell derived nociceptors to study the pathophysiology of pain-linked Na-channel mutations
June 30th	<b>Emilie Macé</b> MPI of Neurobiology, Munich Host: Benjamin Judkewitz	Brain-wide circuits underlying behavior: insights from functional ultrasound imaging
